

## Wychwood Primary School – Forest School

wychwood Primary So	
Topic: Tools	FSU/KS1
Language Enrichment	Materials and Resources
Peeler	Tool bag
Grater	Tools
Hammer	Gloves
Hand drill	Designated tool area in forest
Bow saw	Nails
Conker clamp	Safety goggles
Whittling	Selection of wood
Mallets	String
Trowels	Rope
Forks	
Loppers	
Secateurs	
Knives	
Bill hook	
Flint	
Tent peg	
Health and safety	
Risk assessment	
Experience and revisited learning	Progression of skills and knowledge
Using hammers and nails to join pieces together	I can recognise a given tool
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies	I can recognise a given tool I have listened and understood what this tool is
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den	I can recognise a given tool I have listened and understood what this tool is (tool talk)
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook)
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job Assessment Opportunities
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links in Learning Links to RSHE – staying safe	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job Assessment Opportunities Observations during tool sessions
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links in Learning Links to RSHE – staying safe Fine motor skill development	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job Assessment Opportunities Observations during tool sessions During den building tasks
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links in Learning Links to RSHE – staying safe	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job <b>Assessment Opportunities</b> Observations during tool sessions During den building tasks Observe use of scissors and ability to handle
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links in Learning Links to RSHE – staying safe Fine motor skill development	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job <b>Assessment Opportunities</b> Observations during tool sessions During den building tasks Observe use of scissors and ability to handle materials
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links to RSHE – staying safe Fine motor skill development Gross motor skill development	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job <b>Assessment Opportunities</b> Observations during tool sessions During den building tasks Observe use of scissors and ability to handle materials
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links in Learning Links to RSHE – staying safe Fine motor skill development Gross motor skill development Sassess FSU – Green	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job <b>Assessment Opportunities</b> Observations during tool sessions During den building tasks Observe use of scissors and ability to handle materials
Using hammers and nails to join pieces together Using the bow saw to cut discs/cookies Using the lopper/secateurs to prepare wood for den building Using the hand drill to make holes in conkers for art projects Using secateurs to cut elder Using tent peg to hollow out elder pith Use tools to maintain site Links to RSHE – staying safe Fine motor skill development Gross motor skill development	I can recognise a given tool I have listened and understood what this tool is (tool talk) I have used this tool with support I have used this tool with supervision I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others I can select the correct tool for the job <b>Assessment Opportunities</b> Observations during tool sessions During den building tasks Observe use of scissors and ability to handle materials
